

This chart demonstrates how the basic numbers 1-10 of God's Redemption Pattern are found throughout the Bible as a template for every numeric reference, every list, and even behind all the text. The left side of the chart shows the ten numbers of the Redemption Pattern along with a very brief indication of the theme for each one. The twelve columns each show the text of some of the most well known passages of the Bible and how they have been authored by God in such a way to fit the template of the pattern. This numeric and textual perfection reveals God's plan of redemption for every man as well as a DNA like numeric map which can be used for interpretation, cross-reference to similar passages, validation of scripture and more.
